INNOSPEC
Chemistry Matters™
“In Great Shape for 2017”
FORWARD-LOOKING STATEMENTS

This presentation contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts included or incorporated herein may constitute forward-looking statements. Such forward-looking statements include statements (covered by words like “expects,” “estimates,” “anticipates,” “may,” “believes,” “feels” or similar words or expressions), for example, which relate to earnings, growth potential, operating performance, events or developments that we expect or anticipate will or may occur in the future. Although forward-looking statements are believed by management to be reasonable when made, they are subject to certain risks, uncertainties and assumptions, including those associated with the United Kingdom’s exit from the European Union and our actual performance or results may differ materially from these forward-looking statements. Additional information regarding risks, uncertainties and assumptions relating to Innospec and affecting our business operations and prospects are described in Innospec’s Annual Report on Form 10-K for the year ended December 31, 2015 and other reports filed with the U.S. Securities and Exchange Commission. You are urged to review our discussion of risks and uncertainties that could cause actual results to differ from forward-looking statements under the heading "Risk Factors” in such reports. Innospec undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
USE OF NON-GAAP FINANCIAL MEASURES

The information presented in this presentation includes financial measures that are not calculated or presented in accordance with Generally Accepted Accounting Principles in the United States (GAAP). These non-GAAP financial measures comprise EBITDA, income before income taxes excluding special items and net income excluding special items and related per share amounts. EBITDA is net income per our consolidated financial statements adjusted for the exclusion of charges for interest expense, net, income taxes, depreciation, amortization and impairment of Octane Additives segment goodwill. The Company believes that such non-GAAP financial measures provide useful information to investors and may assist them in evaluating the Company’s underlying performance and identifying operating trends. In addition, management uses these non-GAAP financial measures internally to allocate resources and evaluate the performance of the Company’s operations. While the Company believes that such measures are useful in evaluating the Company’s performance, investors should not consider them to be a substitute for financial measures prepared in accordance with GAAP. In addition, these non-GAAP financial measures may differ from similarly-titled non-GAAP financial measures used by other companies and do not provide a comparable view of the Company’s performance relative to other companies in similar industries.

</table>
Personal & home care is primary strategic market

Current business - Good growth @ 8-10% per annum, but limited to very top end of the market

Requirements of an acquisition

- Increase sales; we are currently only $130M in sales
- Expand product offering; currently premium speciality product lines
- Diversify geomarket sales; currently heavily weighted to the USA

Sought acquisitions to address limitations

Acquired business satisfies requirements
NEW FOOTPRINT – PERSONAL & HOME CARE

Existing Innospec Mfg.
- Chatsworth, CA
- Ellesmere Port, UK
- High Point, NC
- Salisbury, NC

Acquired Huntsman Mfg.
- Barcelona, Spain
- Castiglione, Italy
- Saint Mihiel, France

CRITICAL MASS IN PERSONAL & HOME CARE

- Positioned as major player
  - Over $350M in sales revenue
- Serves all major customers
- Capacity to continue growth; in Europe and beyond
- Excellent foundation for new product development
TEL – MOGAS & AVTEL

Motor Gasoline

- One remaining country (Algeria)
- Potential phase out in 2017-2018

Aviation Gasoline

( reported within Fuel Specs )

- TEL still mandated in 100LL
- Essential for general aviation fleet
- FAA program targets first alternatives by 2018
STRATEGY
FUEL SPECIALTIES

Technology
- Core strategy – strong and leading R&D pipeline

Geography
- Continue in Europe, North America
- Develop Latin America, Russia, Brazil and Asia Pacific
- Establish infrastructure in China, India for later development

Market Share
- Continue to move upwards, based on technology & service

M & A
- Limited opportunities in fuel additives
- Potential backwards integration
OILFIELD SERVICES

Technology
- Development of leading edge solutions; focus on R&D

Geography
- Continue: Focus on North America
- Expand: Canada and Mexico
- Selective focused global expansion

Market Share
- Continue to increase based on technology & service
- Positioned for market recovery

M & A
- Possible distressed assets; especially technology-based or reg. based acquisitions / alliances
- Potential backwards integration
PERFORMANCE CHEMICALS

Technology
- Wider offering to customers
- Improved performance;
- X-free and natural
- Taking more space in the bottle

Geography
- All regions
- Portfolio now much better balanced

Market Share
- Taking more space in the bottle – will be significantly broader post-acquisition

M & A
- Continues to be a key target; acquisitions and partnerships
CONSISTENT OBJECTIVE - BALANCED CAPITAL MANAGEMENT

Capital for Organic Growth
- Capital Expenditure & Working Capital Expansion to fund growth

Regular dividend in place since Nov 2013; Grown +10% pa

$90M share repurchase program

Further alliances, partnerships, and acquisitions
